Ethics Café

Campus conversations about professional and societal ethics

FALL 2013 EVENTS

Copyright: What are your rights and obligations?
Wednesday, September 18, 2013 • 2:30—3:30 PM • O'Shaughnessy Hall 201

Are you concerned about your rights to your own published work? Are you unsure what constitutes fair use? Bring your questions and concerns about copyright issues to this Ethics Café to hear various perspectives about your rights to your work and when using the work of others. The panelists are
- Tim Flanagan, an attorney in Notre Dame's Office of General Counsel
- Harv Humphrey, Interim Director of the University of Notre Dame Press
- Robyn Karkiewicz, Acquisitions Coordinator with the University of Notre Dame Press
- Mark McKenna, Professor of Law and Associate Dean for Faculty Research and Development

Cheating Lessons: Learning from Academic Dishonesty
Friday, November 1 · 10:00—11:30 AM · The Fishbowl in Hesburgh Library

James Lang will discuss his latest book, *Cheating Lessons: Learning from Academic Dishonesty* (Harvard University Press, 2013). As stated on the book's jacket, "Lang reminds educators that their primary focus should be on promoting learning, and not preventing cheating. This helpful book provides accessible summaries of literature on academic cheating, its nature, causes, and prevalence – and illustrative examples of how successful instructors build their courses to encourage learning, and as a by-product, reduce cheating." James Lang is Associate Professor of English and Director of the Center for Teaching and Learning at Assumption College. After receiving his B.A. from the University of Notre Dame in English and Philosophy, Professor Lang continued his education in English completing an M.A. at St. Louis University and Ph.D. at Northwestern University.

Sustainable Cybersecurity:
The Corporate Social Responsibility to Manage Cyber Attacks
Wednesday, November 13 • 3:00—4:00 PM • O'Shaughnessy Hall 201

Scott James Shackelford, JD, PhD, will explore the ways in which cybersecurity may be treated as a matter of corporate social responsibility, such as securing critical national infrastructure. The analogy of sustainable development will be discussed, focusing on the applicability of certain aspects of the green movement, such as integrated reporting and the common heritage of mankind concept, to help foster cyber peace. Scott Shackelford specializes in cybersecurity law and policy, sustainable development, and global commons governance. He is an Assistant Professor of Business Law and Ethics at Indiana University and is spending fall semester 2013 at the University of Notre Dame as a fellow with the Institute for Advanced Study.

Ethics Cafés broach ethical issues pertaining to responsible conduct of research, professional conduct, engagement with the public, and other worldly matters. Drinks and desserts are provided. Open to everyone.
