

GLOBES Scholar Series

Talks Intersecting Environment & Society

Genese Sodikoff, Ph.D.

Associate Professor of
Anthropology
Rutgers University-Newark

Talk Title: Multispecies Ethnography and Epidemiological Puzzles

Dr. Sodikoff's research has focused on labor hierarchies, biodiversity and conservation, human-animal relations, and extinction events in Madagascar. She studies zoonotic disease, disease that spills over from animal species to humans, and its relationship to environmental degradation and cultural practices. Her current research in Madagascar focuses on bubonic plague outbreaks and funerary practices. She is the author of "Forest and Labor in Madagascar: From Colonial Concession to Global Biosphere" and the editor of "The Anthropology of Extinction: Essays on Culture and Species Death."

Friday, April 20th

12:00 noon

Carey Auditorium

(107 Hesburgh Library)
